CLYDE BANK ROBBED

YEGGS BLOW OPEN SAFE GETTING AWAY WITH $1,800

ESCAPED, LEFT NO CLUE

Persons Who Heard Explosions Notified Telephone Operator, Who Failed to Sound Alarm

The Bank of Conception at Clyde was dynamited by robbers last night who secured $1,800 in currency and coin, making their escape without leaving a clue as to their identity.

The robbery occurred some time between midnight and 2 o'clock, the explosions being heard by Miss Nora Ellerman and Miss Margaret Merrigan, who live across the street from the bank some 300 yards away. They reported the fact to th etelephone operator at central, who failed to sound the alarm. Five or six explosions were heard, occurring shortly after midnight.

The robbery was first discovered by J. J. Enis, station agent, on his way to work at six o'clock, when he stopped at the bank to turn off the night lights left burning, as is his custom. He at once gave the alarm and Miss Anna Wirth, cashier, and Chas. Teson, assistant cashier, came at once to the bank. A hurried investigation disclosed the fact that $1,800.63 was missing from the safe.

The robbers are believed to have come in an automobile from the north, as fresh wheel tracks left following a slight rain last night were found, being the only clue.

The bank had been entered through the front door, probably a pass key having been used. The door was unlocked this morning. A big opening was chisled through the brick wall of the vault and the safe inside the vault was then blown open, both dynamite and nitroglycerin having evidently been used. The vault and safe doors were blown into fragments, the explosions doing considerable damage to the interior of the bank.

Further investigation disclosed the fact that the tool house at the round house at Conception had been broken into and chisels and other tools taken to use in the operations. The robbers left several pairs of boys' overalls, which were used to deaden the sound of the explosions. Miss Elleramn and Miss Merrigan said they could see the lights in the bank from their windows and distinctly heard the explosions. The tools were found at the bank this morning.

Sheriff John M. Dowden was called who joined Deputy Gabe Purcell in a further investigation of the robbery. The robbers are thought to have left town, going north, and Sheriff Dowden left in that direction at an early hour in an effort to get some trace of the robbers.

The Bank of Conception carried burglar insurance, being fully protected against the loss.

No clues had been found up to late this afternoon. Some seem to think it is local talent.

Notwithstanding the fact that the usual amount of interest generally found in a city election was lacking, yesterday's election brought a number of surprises and two or three close contests developed. Chief interest centered in the race between E. E. Tilton, Purl Edwards and Mike Liston for city marshal, and as usual, fourth ward voters were the deciding factor, with Edwards winning the race by 55 majority. Tilton carried the three other wards by good majorities. Liston proved to be an outsider, getting a total of 82 votes in four wards. Edwards' vote was 389; Tilton 334.

The fourth ward also decided the matter in the city collector's race, giving A. N. (Doll) Reese a majority that put him over the top with 80 votes to spare. Frank Martin made the second best record in this race with a total of 247 votes in four wards; W. A. Burris polled 160 and W. Y. Cox 67.

The only interesting aldermanic race was in the third ward with but four votes separating the two candidates, Aaron Souers getting 96 and J. A. Spiers 92.

In the first ward James Stewart had no opposition; he polled 154 votes.

In the second ward the retiring alderman, L. L. Maier, was badly beaten for re-election, getting only 54 votes. Warren Jones with 121 votes and Dick Strong with 175 being elected.

In the fourth T. J. Penisten won over his opponent, O. O. Howard, with 192 votes to spare, polling 230 votes to 38 cast for Howard. Howard recently moved from the second ward and stood for election from the fourth.

W. O. Garrett, candidate for mayor, was without opposition and polled a total of 808 votes in all four wards.

In the election of school board members, L. C. Cook and Dr. Jesse Miller were unopposed, the former getting 666 votes, the latter 664. The proposal to vote the second school levy carried by a majority of 323, votes against being 104 and for it 427.

The retiring city officials are: Arthur S. Robey, mayor; John Shonley, city marshal; Elmer Barrock, city collector. Alderman first ward, Frank Orcutt; second ward, L. L. Maier and O. O. Howard; third ward J. F. Colby; fourth ward Roy Martin.

UNCLE SAM'S MEN IN PARADE

Postoffice Will Close Saturday Afternoon In Commemoration of Start of Liberty Loan Drive

The postoffice will suspend business Saturday afternoon between 2 and 3 o'clock so as to permit all of the employees to participate in the Liberty Loan parade and in general with the closing of all stores of the city between those hours. All of the rural carrier, city carriers and clerks of the postoffice will be in the parade.

SCHOOLS IN PARADE

SUPT. COOPER URGES PARTICIPATION IN SATURDAY EVENTS

PARADE BIG FEATURE

Will Form at First and Main at Two o'Clock—Paul Sisson and Neil Somerville Will Direct Formation

The Commercial Club committee in charge of the events to be held next Saturday, when every resident of Maryville and Polk township will be expected to pledge loyalty in the interest of the third Liberty Loan by ceasing business and closing up, announces that the parade will form at First and Main, south, and will proceed north shortly after 2 o'clock. Paul Sisson and Neil Somerville will direct the formation of the parade and organizations that take part will be assigned a place in line on their arrival there. The parade will be led by the Maryville band. Following the parade there will be public speaking in front of the court house.

County Superintendent Bert Cooper has issued a letter to the teachers urging them and the school children to take part in the Liberty Loan parade in several of the towns of the county. Supt. Cooper in his letter, says:

The school children and teachers of Nodaway county have been active in every war measure yet proposed. Next Saturday, April 6, when demonstration meetings and parades will be held in practically every town in the county to launch the third Liberty Loan campaign and to celebrate the anniversary of our entry into the war for God and humanity, we are counting on the schools to do their part to show the patriotism we know they possess. The county committee invites every school to be present at their respective towns and take whatever part the local committee offers to them.

In Maryville, Barnard and some other places a parade will take place at 2 o'clock and the schools will participate. The district track meets at Ravenwood and Guilford will start sharply at 3 o'clock at the close of the demonstration meetings. This will give the children a chance to take part in the parade at their own town at 2 o'clock and reach the meet for the first contest.

Every man, woman and child in this county will take his or her stand either for God, humanity and our country, or for the kaiser, the devil and all that is hellish. Let us show on which side the schools stand."

Mrs. Robert O'Connell of Gravity, Ia., is visiting in Maryville with her mother, Mrs. Anna Brant, and her sister, Mrs. Herman Seiple.

PICARDY BATTLE FRONT CHANGES

AFTER TEN DAYS OF FIGHTING OPERATIONS HAVE BEEN SHIFTED ELSEWHERE

SPECULATION AS TO THE NEXT MOVE RIFE

Rolling-Movement Seemingly Started by British and French, Has Been Abandoned—An Entente Offensive Would Not Surprise

Special to The Democrat-Forum.

London, April 3.—After concentrating all their attention, official reports on the great Picardy battle for the past ten days, the British, French and German war offices are now telling of operations elsewhere on the western front. The French office told of fighting on the Woevere plain and along the upper Alsace, while the Germans reported engagements at Verdun and Vosges. The British war office announces there is raiding activity in west Flanders.

London, April 3. — The Germans have resumed their pressure against the British line east of Arras, delivering determined attacks in the sector at Fampoux on the Scarpe river, the war office reported today. The assault which was made Tuesday was completely repulsed, the Germans suffering heavily and leaving many dead behind. In addition the British captured some prisoners. The British carried out successful operations during the night at Ayette which is now in British possession. The lull along the Picardy front from Arras to the French line continues.

Paris, April 3.—Residents of Paris today greeted with joy an official announcement that one of the German big guns that has been bombarding Paris had burst, killing five men. The communique issued late last night is attributed to information secured from German prisoners captured on the French front.

Washington, April 3.—With the second stage of the battle at Picardy still to develop, Washington today was speculating as to what the next move would be. Army officers were somewhat puzzled because the rolling up movement which seemingly was started by the British and French has been abandoned. It is believed there has been a distinct change in the plans of General Foch and no one here would be surprised should the Entente try an offensive against the Germans at a point removed from the present scene of fighting.

The series of battles which the German assaults precipitated must last months, officers here say. They declare there is a decided chance that this summer's campaign will be made the final one of the war. The Germans are now at a maximum of man power, these officers says, and it has been demonstrated that the Allied forces now in France can hold the German armies.

The losses in the last thirteen days of fighting have been very large, but far more on the German side than on the British side. The United States continues rushing its men and munitions abroad.

Rome, April 3.—Secretary Baker arrived in Rome this morning and is deeply impressed with the devastation caused by the war.

Misses Orpha Farris, Willetta Kittell and Helen Johnson went to St. Joseph yesterday on business.

THE NEW FOOD RULES

MUST CUT WHEAT FLOUR CONSUMPTION STILL FURTHER

HOARDERS ARE WARNED

County Food Administrator Declares Selfish and Disloyal Person Will Be Punished

The food administration announces that as a military necessity from now until new wheat is milled we must reduce our monthly consumption of wheat in the United States to 21,000,000 bushels per month, which is about one-half of the normal consumption.

To accomplish this the following orders and requests are made:

To Householders.

You are earnestly requested to use not to exceed 1½ pounds of wheat products per week per person. This means not more than 1¾ pounds of Victory bread containing the 20% substitutes, and ½-pound of flour per person in addition combined in all the following uses: cooking, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals. You may make this saving by wheatless days or otherwise, as you desire, just so you do not exceed the above limit.

Public Eating Places.

Public eating places, including hotels, restaurants, cafes, lunch counters, clubs and boarding houses are ordered to strictly observe two wheatless days a week—Monday and Wednesday—and in addition thereto shall not serve to any one guest at any one meal an aggregate of breadstuffs—macaroni, pastry, pies, cakes, wheat breakfast cereals — containing more than two ounces of wheat flour.

Also no wheat products are to be served unless specially ordered, and all public eating places must not buy more than six pounds of wheat products per month per guest. And you are directed to keep accurate account of the amount of wheat products bought and served and of the number of guests served, and these records will be called for and inspected by government representatives.

Dealers.

Are directed to limit the sale of flour to the consumer to not more than 24 pounds per person in town, and 48 pounds to a person in the country at any one time, with equal weight of substitutes named as follows:

Substitutes.

Hominy, corn grits, corn meal, corn flour, edible corn starch, barley flour, rolled oats, oatmeal, rice, rice flour, buckwheat flour, potato flour, sweet potato flour, soya bean flour and feteretia flour and meal.

Study the above carefully, as no other substitutes will be permitted. Don't make any guesses; the above is your guide and if an article is not named above it can not be used as a substitute.

Dealers Be Careful.

Dealers may still sell flour to the consumer who has his own substitutes by taking his written statement on the form now in use. But you should be careful to explain to him just what he is signing and make him understand that it is a signed statement that he has this substitute on hand and that it is also a promise to use the substitutes pound for pound with the flour purchased.

If you have any suspicion that the party is not acting in good faith, refuse to sell him and notify me. Confine your flour sales to your regular customers and inform yourself of the size of their families, and if you have any reason to believe that a family is not saving flour you should report the matter to be at once. The above caution applies also to the sale of sugar.

Meatless Days.

Meatless days are abolished for the month of April on account of unexpected supplies. But this should not be taken as a license to use an excessive amount or to waste meat.

Warning to Persons Selling Bread.

Every person making bread or pies and other pastries and selling it is a baker, regardless of whether he sells one loaf or a wagon load, and must observe the rules governing bakers, which are:

Bread must contain at least 20 per cent of wheat substitutes and pies, cookies and all other pastries must contain at least 33 1-3 of substitutes.

This applies to all alike, including church or Red Cross markets.

In Conclusion.

I have taken a careful survey of the county the past two weeks and find that most of our people are doing a great service in flour saving. The books of the merchants disclose this, as they show little flour being sold. Many merchants who in pre-war times sold an average of a car load of flour a month now are selling from 80 to 100 sacks a month.

But there are still some who are selfishly disregarding the regulations and making little or no attempt to save flour. This is absolutely un-American and disloyal and anyone knowing of such cases should report them to me for investigation and if I find any such cases I propose to give them the fullest publicity and let the people know just who are refusing to help in this crisis.

Hoarders, Take Notice.

The possession by a dealer of more than 30 days supply of flour or sugar under present conditions has been ruled to be hoarding.

The possession by an individual or a family of more than 48 pounds of flour, if living in town, or 96 pounds if living in the country, and five and ten pounds of sugar under same conditions, has been ruled to be hoarding.

There are still in the county a number of people who have on hand supplies of flour and sugar in excess of these amounts, and are hoarders, and are subject to a fine of not more than $5,000 or a two years imprisonment or both.

I have already called before me in private a large number of these hoarders and required them to return to the dealers their excess and have been careful to give no publicity to the matter.

I now know of a number who are hoarding, and think there are many I do not yet know of, and have concluded to give all a chance to return their excess flour and sugar without publicity.

Therefore, Mr. Householder, if you have on hand more than the amount of flour and sugar named I suggest that you return all said excess before the tenth of this month to the dealer you got it of and take from the dealer a receipt for the amount returned and mail said receipt to me, for after the tenth of this month, if I hear of a case of hoarding, I will summon the party to appear for examination at a public hearing of his case and advertise said hearing as widely as possible.

Dealers receiving hoarded flour or sugar should pay for it, and give the party returning it a receipt for the amount of pounds returned and should direct the party to mail the receipt to me. The dealer should also keep a record of all such transactions and report them to me.

Away With Your Sprays and Inhalers If You Want to Be Rid of Catarrh

Deep-Seated Disease That Cannot Be Reached by Local Treatment.

When you hawk and spit until you almost strangle in an effort to get your breath, because your air-passages are all choked up with Catarrh, and your condition grows worse from day to day, you are about ready to realize that Catarrh is by no means a simple ailment.

If you have had the disease for any length of time, you have doubtless used enough treatment to convince you that you will not be able to find any lasting relief from the remedies that are so generally relied upon. Others who have been afflicted with Catarrh have used atomizers and sprays, ointments, salves, jellies and other local applications by the wholesale, without making the slightest progress toward a cure.

You are doomed to the same disappointment, if you rely upon the same misdirected methods of treating this disease, for Catarrh is too stubborn and deep-seated to be reached by medicated applications which are applied only to the surface.

Why not save yourself the expense and the delay of getting on the right road, by discarding entirely all these plans of treatment which others have found to be absolutely without merit? Not only is Catarrh a source of suffering to yourself, and annoying and repulsive to those about you, but it is a disease that is not to be considered lightly, for if it is not checked the lungs sometimes become affected, and everyone knows how serious that is.

Catarrh is caused by millions of tiny disease germs that infest the blood. When they attack the delicate membranes and air passages of the nose and throat, you can never get rid of them by sprays and atomizers. They must be thoroughly routed from the blood. That is why S. S. S. is used so successfully in treating Catarrh. This remedy is so thorough in cleansing the blood that it routs out every germ of Catarrh or other disease.

S. S. S. goes right down to the source of the disease, and if you will begin its use today, you will find yourself at last on the right treatment. Go to your drug store and get a bottle today, and if you want any special advice regarding your case, you can obtain same without charge by writing to Medical Director, Swift Specific Co., 81 Swift Laboratory, Atlanta, Ga.

The People of Our Nation

Earn and spend more than any nation on earth, but the bank deposits of the country have never attained a correct ratio with the earnings of its people.

It takes money to win wars, therefore business must not be "as usual" but better than usual.

To that end we must earn more, bank more and spend less for those things that are not necessary.

The Companionable Woman.

Men marry for companionship; some get it and some do not. No woman who is dragged down with ailments peculiar to her sex can be fit and happy companion for any man. There is, however, one tried and true remedy for such conditions in that famous old root and herb medicine, Lydia E. Pinkham's Vegetable Compound, and no woman who is afflicted with displacement, irregularities, inflammation, ulceration, backache, headaches, nervousness or "the blues" should rest until she has given this good old-fashioned remedy a trial. It will restore health and influence your whole life.

THE SPRING DRIVE

Our boys are going "Over the top" and into "No man's land" this spring. No one has any doubt of their ability to get there. There will also be a spring drive on this side of the ocean, because March is the year's "blue Monday." It is the most fatal month of the year. March and April is a time when resistance usually is at lowest ebb. It is a trying season for the "run-down" man. But medical science steps in, and says, "it need not be"! We should cultivate a love of health, a sense of responsibility for the care of our bodies. Do not allow the machinery of the body to clog. Put the stomach and liver in proper condition. Take Dr. Pierce's Golden Medical Discovery, to be had at most drug stores in tablet or liquid form, tablets sixty-cents a vial, composed of native herbs. This puts the stomach and liver in proper condition. You may be plodding along, no spring, no elasticity, no vim, but as soon as you have put the body into its normal physical condition—oiled the machinery, as it were—you will find new vim, vigor and vitality within you. A little "pep" and we laugh and live. Try it now. Send Dr. Pierce, Buffalo, N. Y., 10c. for trial package. A little energy will say the day. The prime necessity of life is health. With spirit and energy you have the power to force yourself into action. The Golden Medical Discovery is the spring tonic which you need.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes —Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

Say Good Bye To The Wash Tub

Wash day is too expensive. If you do the family wash yourself it costs too much, in your time, your health, your materials, and extra fuel. If you have a washwoman it takes up your day, uses your materials, your fuel, and means an extra meal. All things considered your laundry can do your family wash for less than you can do it at home.

22 Million Families in the United States

IF EACH FAMILY saved one cup of wheat flour it would amount to 5,500,000 pounds, or more than 28,000 barrels. If this saving was made three times a week, it would amount to 858,000,000 pounds, or 4,377,000 barrels in a year.

You can do your share in effecting this saving and really help to win the war by omitting white bread from one meal today and baking in its place muffins or corn bread made according to this recipe:

Corn Meal Muffins

¾ cup corn meal	2 tablespoons sugar
1¼ cups flour	No eggs
½ teaspoon salt	1 cup milk
4 teaspoons Royal Baking Powder	2 tablespoons shortening

Sift dry ingredients together into bowl; add milk and melted shortening and beat well. Bake in greased muffin tins in hot oven about 20 minutes. Same batter may be baked as corn bread in greased shallow pan.

Obituary.

Theodore Snowberger was born in Pennsylvania, February 1, 1865, and was called to rest from his farm home six miles northeast of Graham, Mo., Monday, April 1, 1918, in his 54th year.

At 17 years of age he came to Missouri from his native state and soon after entered McPherson college, and during his six years' study completed a business and normal course. Later he taught in a college in Manchester, Ind., and taught one term of school in this county. In 1897 he came to Nodaway county, locating on what was known as the Helfin farm, where he lived for two years, then moved to the farm where his family now reside.

He was married to Lizzie Shambargar, December 19, 1894. This union was blessed with four children, Lucile, Eula and Arthur, who, with their mother, are left to sorrow. He also has four brothers and two sisters living.

When a young man he united with the Dunkard church, but about six years ago he took membership with the Christian church at Palestine, where for 21 years he has had charge of the music and most of this time taught a class in the Bible school. He was an elder of the church at the time of his death. He was also president of the Hughes township Bible school association.

Mr. Snowberger was a progressive farmer as well as a great Bible student. He always took up to date magazines and papers which would enlighten him about his farm and church work. He has exerted every effort to educate his children, each of them having attended the normal at Maryville, and the daughters are already teachers in the public schools.

Mr. Snowberger has not been in good health for many months, yet his sudden call from earth's activities is a great shock to the community. He died in the Lord and his works do follow him.

Funeral services were held at Palestine church Wednesday, April 3, at 10 a. m. Interment was at Maryville.

S. D. HARLAN.
